ADAMS Prepares Andover Medical Inc., for Initial Private Offer

Newton, Massachusetts—ADAMS has been retained to prepare Andover Medical Inc.'s business opportunity brief and presentation to potential investors. The board called on ADAMS for its communications experience in the financial markets as well as with emerging medical organizations to develop a compelling and accurate investment summary. ADAMS was able to work closely with all involved parties—including legal council—to meet Andover Medical's tight deadlines.

Ed Reilly of Andover Medical stated, "ADAMS played a key role in our first round of financing. Because of their financial services and business background, they were able to work with our legal team, generating an offering summary and presentation from the necessary legal documents of our offering. Their work helped us reach the goals of our initial offering ahead of schedule."

About Andover Medical: Andover Medical, Inc. (AMI), is seeking to take advantage of projected growth and evolving economies of scale arising from consolidation in the procedure specific durable medical equipment (DME) and services segments of the orthopedic, podiatric, and urological physician care markets in the United States. By establishing a nationwide subsidiary network, AMI plans to offer physicians the largest selection of competitively priced brand-name DME, and urodynamic diagnostic and treatment products.

About ADAMS: With resolute client focus, ADAMS is a results-driven branding firm that helps clients achieve their goals by developing compelling work grounded in sound strategy. For nearly two decades, we have collaborated with clients across diverse industries to increase their visibility, credibility, and profitability through deliberate, multi-faceted, and creative communications.
